Healthy Eating Made Simple

NON-PROCESSED WHOLE FOODS LIST

Making better choices and cultivating a healthier lifestyle involves opting for whole, unprocessed foods to provide your body with essential nutrients that promote health, wellness, and longevity.

Do your best, it's not all or nothing, but avoiding processed foods that contain excess sugars, additives. preservatives, pesticides, herbicides, fungicides, GMOs, nitrates, artificial flavors, colors, and smells will reduce your risk of negative health outcomes, including cancer.

Enjoy fresh fruits and veggies. With your legumes, nuts, and seeds soak before you eat, sprout if you can. Make homemade sauces and dressings with herbs from your pantry. Eat whole grains that aid in digestion and assimilation. Animal proteins should be grass-fed and humanely treated. Delight in unrefined and cold-pressed nutrient rich oils. ENJOY.... Eat to Live, Not Live to Eat!
